#### **On View Sunday**

The show will embody the music from the **Feel EP** by Myron Laban and Maurice Mayes via an immersive art experience. Select paintings and installations will be displayed which illustrate various tracks on the EP. The goal is to transport the audience through the transformation of the gallery space, allowing the music to be felt through the art and the art to be felt through the music.

**Myron Laban** is a 27 year old visual artist and pharmacist born of Egyptian immigrants. He is most known for his CTA Project and Uplift pieces. His "Uplift" series represents perseverance to keep moving forward during struggle, while maintaining hope that things will be okay. In 2017 he was named "best new visual artist" by The Chicago Reader and has been featured on PBS, CBS, USA Today, and other notable media outlets. Myron has incorporated his art into the community with organizations such as Hope For The Day, SocialWorks, Young Chicago Authors, and Boys and Girls Club of Chicago. His ultimate goal is to create art that helps people through their struggle.
