FOR IMMEDIATE RELEASE

ONE FATE STUPID (5)
2021

Mixed reality garment, photo editorial
Model: Gigi Loving

"The sun isn't close to rising, and you've already offloaded every last vintage roseToken you won in that cryptoestate sale last week. A temporary hold has been placed on your account. And now a privately-owned, city-contracted driverless vehicle is being dispatched to your coordinates (at your expense) because your eye tracking speed has fallen below the average of your fellow bar patrons' preferences (they're calling you sloppy babe) as agreed to in the TOS. Oh—and you use an ugly interface. It's not just like that in the future, you picked that yourself."

ONE FATE STUPID features collaborative artworks by Bun Stout and Brittany Sowacke, piecing together narratives, scams and a philosophical internal monologue from a night in a near-future drag bar.
